X100-34

10/2003

## Subject

## OPTIONAL SPECIAL TOOLS

## Section: 100-00

## General Information

This Technical Bulletin has been issued for the change in the Technical Bulletin number and is a replacement for Technical Bulletin X100-30. Please destroy all copies of X100-30 and replace it with this Technical Bulletin X100-34.

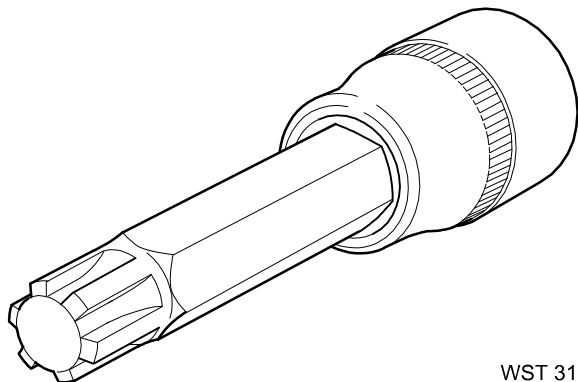

### Issue:

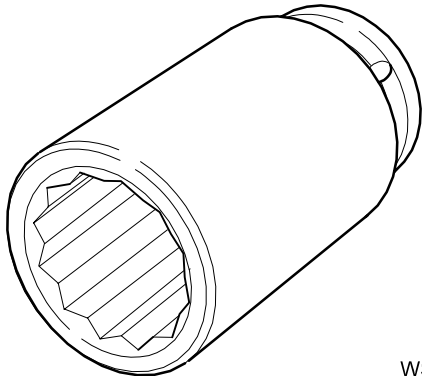

It has been highlighted that the dealer network are having difficulty sourcing standard proprietary tooling from the normal outlets. SPX have now made available two non-mandatory tools to cover requirements. Please contact SPX to order the tools; see details below:
